

High Deductible Health Plan Preventive Drug List

Updated January 2020

Your employer is making an effort to reduce your health care costs by giving you tools to help you stay healthy and productive. Below are the medications that are currently included in the High Deductible Health Plans offered through your employer. These medications help protect against or manage some high risk medical conditions. Taking these medications as directed by your prescriber can help avoid serious health problems. That may mean fewer doctor visits and hospitalizations, reducing your total health care costs.

In the drug list below, generic drugs are shown in lowercase type. Brand name drugs are shown in uppercase type.
